

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

Descriptions of two new species of *ANODONTÆ*, from Arctic America.

BY ISAAC LEA.

*ANODONTA KENNICOTTI*.—Testâ lævi, ellipticâ subinflatâ, inæquilaterali, posticè obtusè biangulatâ, anticè rotundâ; valvulis subtenuibus; natibus prominentibus, acuminatis, ad apices granulatis; epidermide pallido-luteâ usque tenebroso-fuscâ, eradiatâ; margaritâ cæruleo-albâ et iridescente.

*Hab.*—Great Slave Lake at Fort Rae, and north end of Lake Winnipeg, Arctic America. R. Kennicott.

*ANODONTA SIMPSONIANA*.—Testâ lævi, ellipticâ, subcompressâ, elongato-lenticulari, posticè obtusè angulatâ, anticè rotundâ; valvulis tenuibus; natibus prominulis, ad apices undulatis; epidermide tenebroso-fuscâ, eradiatâ; margaritâ cæruleo-albâ et iridescente.

*Hab.*—Fort Rae, Great Slave Lake, Arctic America. R. Kennicott.

---

*March 5th.*

MR. LEA, President, in the Chair.

Forty-three members present.

The following papers were presented for publication :

“Descriptions of twelve new species of *Uniones* from Alabama, by Isaac Lea.”

“Remarks on a species of *Osmerus*, taken in the Schuylkill, below Fairmount dam, by Thaddeus Norris.”

And were referred to Committees.

Mr. Lea read extracts from a letter from Dr. Showalter, Uniontown, Alabama, in which he expresses a belief that the genus *Schizostoma* is found only in the Coosa River.

The deaths of Dr. Samuel Moore, a member, at Philadelphia, on the 18th of February, and of Prof. F. Tiedemann, of Heidelberg, a correspondent of the Academy, were announced.

---

*March 12th.*

MR. LEA, President, in the Chair.

Forty-seven members present.

A paper was presented for publication entitled

“Notes on new and rarer species of *Diatomaceæ* of the United States, by Francis W. Lewis, M. D.,” and was referred to a Committee.

Dr. Stewardson read extracts from a letter from Prof. Wyman, of Cambridge, dated Feb. 24, 1861, in relation to the habits of *Anableps*, which, swimming as it usually does upon the surface of the water, and sometimes leaving that element entirely, is enabled, by the peculiar structure of its eyes, to see as well in air as water, the upper half of the eye being especially adapted to receive the rays of light from the atmosphere, the lower half, from the water.

---

*March 19th.*

MR. LEA, President, in the Chair.

Forty-five members present.

Copies of the Proceedings for January and February were laid on the table.

[March,
